

How to Set Up Online Banking on a Desktop or Laptop Computer

Abilene Teachers Federal Credit Union

Step One

- Navigate to www.abileneteachersfcu.org . Look for the blue Online Banking box on the left side of the page.
- In the Online Banking box, type:
 - For first time users: The Username is your member number
 - For first time users: The password in the last 4 digits of the primary member's Social Security number (this is referred to as the "PIN Number".)

Step Two

- Create a new username and password (something that you will remember.)
- Add your phone number (please enter the number of the phone you are currently using.)

Step Three

- You will be asked to confirm your identity
- Select one of the following:
 - **Call Me** – this option will send a phone call from 325-677-2274 to the phone number you entered in Step Two. When you receive the call, press the # (pound) key as directed and you receive a 6-digit access code. Type this code into the specified box on your computer screen.
 - **Text Me** – this option will send a text to the phone you registered in Step Two. The text will come from 448-33. The text will contain a 6-digit access code. Type this code into the specified box on your computer screen.
- At the end of either option you will need to choose to register or not to register your computer.
 - If you register your computer, you will not need to enter a passcode again.
 - If you do not register the computer, you'll need to enter a passcode each time you log in. Please do not register public computers such as those found at area libraries.

Once these steps have been completed, you will have 24/7 access to your accounts. This includes checking your balance, seeing recent transactions, transferring money between accounts and using the Bill Payment system.

After a username and password is set up, you can access your account on any digital device by using the same username and password.
